Dist-Jorhat, ASSAM, INDIA.**

Dear Benefactors,

With an immense joy and gratitude ,I extend a sincere thanks to our loving benefactors for the effort and pain they taken to collect money to provide Solar energy power for the children of Ursuline convent school Jorhat and the drop out students of Don Bosco school, as the schools are in the same campus, run by same sisters and staff. Children are very happy to have the regular supply of electricity . Now they will be used of making habit of their self study. They are learning time management as we have provided the solar energy, They are becoming more responsible of their studies as well as other duties of their lives. Lack of electricity ,children were not been able to concentrate in their studies, and found many failures the among them, but now, I am very sure, the number of the failures will decrease. Children will be more active and creative. There will be more different than what they were before. Through this light they will be safe and sound, realize that the creator is so loving and wonderful, who has created and intervned and discovered and given power to man to utilize which is very natural. The children of our school will develop in various ways, as the opportunities are being provided by our benefactors. Through this energy , children will be using and learning the computer which is very necessary and important for their lives. Now they will grow in wisdom and knowledge and gain their self confidence, come out of their self and broaden their mind and heart to work to build the just and happy society in their own area.

Our children are so existed and over joy to be provided the regular solar energy power for their self studies and to practice the computer in the school. They too express their joy in gratitude to our loving benefactors for your generosity, great love, sacrifices, concerns and prayers. We can't forget the love we have received from you in the token of this solar energy power which is most important for our lives. We always remember you in our prayers. One again thanks a lot. May God bless your undertakings.

With much Love and Prayers.
